Dear St Mary's,

We are absolutely blown away by your amazing fundraising efforts in support of our RetCam appeal. Thank you so much for raising a tremendous £151.00 for Moorfields Eye Charity. We are delighted that you chose to support us with your Christmas jumper day and hope you all had an amazing time!

Fundraising is vital for research - it helps us understand various sight conditions and ultimately, to cure blindness. It highlights the important work of Moorfields, the staff, the research team and everyone involved.

Alison, a patient at Moorfields.

She runs a craft business with her mum and donates a percentage of sales to Moorfields Eye Charity.

With the new camera, we will be able to look to the future and conduct crucial research into the conditions that cause sight loss among children. In this way, your gift will be helping not only patients at Moorfields, but children across the world.

On behalf of everyone at Moorfields Eye Charity, thank you once again to every one of you who made this brilliant donation possible.

Warm regards,

Rachel Jones
Director of development
